Promoting the Sanctity of all Human From Conception to Natural Death

## Connecting the Dots.....

*KW RTL President Jane Richard*

KW Right to Life is no stranger to Canada's loss of constitutional freedoms. In 2018 we were attacked vigorously by the proabortion group SHORE, formerly Planned Parenthood who insisted our bus ads were showing false information regarding the consequences of abortion. Of course regional officials and public transit quickly obeyed the disordered mindset of the far left, largest abortion provider in the country. The local group SHORE has its roots in Planned Parenthood under the Marxist influence of eugenicist, Margaret Sanger who during her life worked in

several countries including the US and Canada to eliminate the unwanted and mentally and physically infirm. Sanger was a racist. Watch the video trailer; Maffa 21 Black Genocide <https://youtu.be/PjEJiseyBLE>

Long time scientific evidence proves that abortion is linked to suicide, substance abuse, breast cancer, depression and infertility not to mention increasing evidence of future premature births and serious health conditions.

One of SHORE's avid volunteers even went to the extreme of faking an attack on her person and blamed it on KW Right to Life supporters. Under police investigation she was charged with mischief for lying about the attack.

Fast forward to the present time when prolife groups are in danger of losing their charitable status due to the tyrannical mandates of the current government who are extending control over personal autonomy under the guise of public health during the pandemic. We have all seen the negative effects of this on Canada's citizens. Is it any wonder why there is so much mistrust toward the government and the current health administration that it controls? Instead of health officials following the real science, they are following the orders of freedom control in the highest levels of government who are subverting the truth regarding numbers, death counts and therapeutics.

KW RTL is used to fighting for our right of self expression and the right to life of every human being from the moment of conception to natural death. Government sees us as a threat to their agenda of population control. More and more Canadians are understanding the reality of world-wide domination through Marxist values. Time is short to reclaim our democracy as stage 2 of 'the great reset' according to Klaus Schwab (World Economic Forum) goes into effect with illegitimate Climate Change science and even more restrictive mandates. Please pray for Canada and the whole world.

Charitable #10789-6599-RR0001

## Must read books to further understanding of 'the great reset'

AMERICAN MARXISM by Mark Levin, FAKE INVISIBLE CATASTROPHES AND THREATS OF DOOM by Patrick Moore (Canadian), The Real Anthony Fauci by Robert F. Kennedy Jr., HERETICS by G.K. Chesterton

### Impending Threat to Charitable Status by Catherine Mackid, Office Assistant KW RTL

The past couple of months letters have been mailed from KW Right to Life to Members of Parliament, Senate Members and our Prime Minister regarding the Liberal government threat of removing charitable status from Crisis Pregnancy Centres and Pro-life educational organizations in Canada like KW Right to Life. While many special interest groups receive government funding and are given charitable status, pro-life counselling and educational organizations also deserve the right to exist as they have the past fifty years.

Pro-life Crisis Pregnancy Centres and Educational organizations are not dishonest in their counselling but are in fact transparent about being pro-life and giving women the freedom to consider that there are other options in addition to the choice of abortion. A pro-life approach to pregnancy counselling should be accommodated by our Canadian Constitutional rights that allow inclusion and diversity in our Canadian democratic identity. Freedom of conscience and freedom of speech are a fundamental part of this identity.

The reduction of these centres means a significant decrease in support available to pregnant women in the community. Many teenage women who are pregnant can feel alone and isolated, like an animal in a trap and panic when they are not aware of supports that can be available to them. These women who have often felt ashamed and humiliated can feel pressured to get an abortion and later regret it, suffering from post-abortion trauma. Freedom is the birthright of all women in considering their choices instead of making a decision under pressure. Crisis Pregnancy Centres and Pro-life educational organizations play a pivotal role in supporting women's reproductive rights. While there is still time, please continue to write letters, emails and calls to Members of Parliament and our Prime Minister regarding this issue.

"All acts are revolutionary which go against divinely revealed truths, natural law and rightly established authority legitimately exercised. A True 'Counter-revolutionary' is one who upholds God's right order – be it the Church, the state, the family or even one's self. This understanding makes it clear why the devil is the ultimate revolutionary." The History of Revolution—Eric Bermingham

## Is History Repeating Itself?

### *Intolerance and Censorship of Truth and Loss of Dignity for Human Life - especially the child in a mother's womb*

*Re: "Anti-abortion ads removed from GRT buses – Complaint by women's sexual health organization prompts region to pull ads" – Johanna Weidner, Waterloo Region Record, April 5, 2019*

On May 10, 1933 Nazi dominated student groups carried out public burning of books they claimed to be "un-German". Book burnings took place in 34 university towns and cities, with many works, especially of prominent Jewish writers e.g. Albert Einstein, ending up in bonfires. The German Nazi regime afterwards also raided book stores, libraries etc., to confiscate material it deemed dangerous or "un-German" – a powerful symbol of Nazi intolerance and censorship.....

.....In conclusion, let's hope respect for the truth, human dignity, and freedom of speech, the cornerstone of our democracy will be upheld by our Canadian elected officials, in government and in various organizations, so that pro-life ads especially in the Kitchener-Waterloo Region will be justly allowed to educate the public, now and in the future. In doing so, our Canadian society will say: no to intolerance; no to censorship of truth; and no to disregard for human life - in keeping with the real values of a civilized society.
