***Mission: Promoting the Sanctity of all Human Life
From Conception to Natural Death***

The 42nd Annual Walk for Life 2021

KW Right to life was a pioneer of Walkathons 42 years ago. Our founding members were onto something as it has proven to be our largest fundraiser for all these years.

The last year plus have been financially hard on the KW RTL Association saying nothing about not being unable to hold most events.

Instead of raising pledges only, some of our Walkers took it upon themselves to find creative ways to raise money for us. The picture above features the Witzel family from New Hamburg and Estella Correia with her grandchildren doing a country walk. To the right, the Grundy's who bicycled to the KW RTL Office from Stanley Park for the second year and below and Brendan Kavanaugh KW RTL Board member who walked through downtown Kitchener with the President of KW Right to Life. All the fundraisers and sponsors are cheerful supporters. The person who raised the most wins a \$100 prize and will be presented with it at our Summer gathering. Thankyou! You help make our dreams for the future come true. Ω

*Each of us is the result
of a thought of God.*

Each of us is Willed.

Each of us is Loved.

Each of us is Necessary.

- Pope Emeritus Benedict XVI

Commentary by Jane Richard
KW RTL President

The Canadian flag traditionally represents 'a strong symbol of peace, unity and freedom and is a welcomed flag in other countries and with people around the globe.' Constitutional freedoms in Canada were taken for granted. Everyone had the following fundamental freedoms: Freedom of Conscience and Religion, Freedom of Thought, Belief, Opinion and Expression, including Freedom of the press and other media of communication, Freedom of peaceful assembly and Freedom of association, such as Freedom of Speech.

Many Canadians are feeling the inequality in regard to our peace, unity and freedom these days and not just because of the pandemic. All around us for decades, with acceleration during these pandemic times, we experience violations of these freedoms due to political ideology. Below, a few examples of many occurrences across the country.

- Recently, a leader and former cabinet minister, now a leader of a political party was actually put in prison for 8 hours for trying to meet with a protest group of his supporters outdoors that were supposedly violating public health orders for covid restrictions.
- A member of parliament was kicked out of his own political party for being too socially conservative.
- Nurses and doctors have been forced to violate their conscience in matters of abortion and euthanasia.
- Pastors have been fined for having church services outside with people in vehicles.
- Pro-life groups have been censored at every turn and KW Right to Life was barred from one local school board. The offence was bringing to light proof that abortion referrals were happening in the system.
- KW RTL more recently has been censored by local authorities for placing ads on city buses exposing the after-effects of abortion and lately their new ads have been disallowed on social media.

Even some mainstream religions are following the latest gods of woke(ism), abortion rights, gender theory and of course climate change.

Cheng Xiaonong is a scholar of China's politics and economy, based in the US and was a former member of the Chinese Communist Party, as an aid to Leader Zhao Ziyang. He writes, "If you try to analyze the past and present of the climate policies of various countries, you'll come to understand why 'global warming' has disappeared."

Politicians advocate climate and woke policy as new 'gods' that drive their political and economic agendas. Schools at all levels are saturated with woke curriculum and leave no freedom of discussion that may show a different view, if teachers and professors want to keep their job.

Further, those on the hard left will punish or cancel anyone who does not agree, and are fast-tracking absurd laws along with cancelling history in order to further their neo Marxist propaganda. They will end up 'eating their own'.

Every citizen has a right to practise fundamental freedoms without fear of recrimination. The only way to stop the injustice is to speak out for change. The alternative is to face the consequences that a regime offers. Below are some lyrics of our National Anthem. The word God refers to the real God not the gods of disordered standards.

'God keep our land, glorious and free, O Canada, we stand on guard for thee!'

A lot of us read the book in 1968 called 'The Population Bomb', a best seller by Paul Ehrlich argued that entire countries could not be spared from extinction. The science of the day embraced it.

News & Views

Stephen Moore's article in the EPOCH TIMES June 10-16 is entitled: Suddenly, 'The Population bomb' Is a Population Bust, talks about the exact opposite situation now happening. The following are excerpts from his article.

He states: "So imagine my surprise when I read this front page headline from the May 23rd, New York Times:" 'World Is Facing First Long Slide in its Population: Fertility Rates Plunge.'

"The story describes that even in some of the once most over crowded nations," 'Countries are confronting population stagnation and a fertility bust. People are having so few children now that maternity wards are...shutting down.' across the planet."

"The United Nations Population Fund (now called Family Planning) championed forced sterilizations, mandatory abortions, China's gruesome one-child policy and other coercive measures to reduce birth rates. Ironically, the same academics and government officials who today champion 'a woman's right to choose' supported imposing brutal controls on the rights to choose their own family size. Even in America, women in recent decades are often stigmatized for having more than three children, and parents with large families are disparaged for not knowing about birth control."

"Today, many Western countries have birth rates below replacement-level fertility (2.1 kids per woman of childbearing age) and are promoting exactly the opposite of what was preached only a few decades ago: pro-natalist policies. Governments are now paying women to have kids. No country faces a greater demographic crisis than China, which now has an inverted population pyramid with lots of old people and few kids to take care of them."

Canada's fertility rate has been below the replacement rate of 2.1 births per women since 1971. Ω

Contact your MP to **pass Bill C-268**, to enshrine in law, a minimum national standard of conscience protections for medical professionals while respecting the jurisdiction of my provincial colleagues to expand on it. It is a response to calls from disability rights groups, First Nations, the Ontario Medical Association and many hundreds of medical and mental health professionals to protect conscience rights. It would ensure the medical professionals who choose to not take part in, or refer a

patient for medical assistance in dying would never be forced by violence, threats, coercion or loss of employment to violate the freedoms protected in section 2(a) of the Charter. This bill also serves to protect the rights of patients to receive a second opinion, and by doing so, would protect our health care system. - Kelly Block MP, the Protection of Freedom of Conscience Act - EPC Newsletter June 2021

Contact your MP and the Senate to **vote against Bill C-6 as is**: An Act to Amend the Criminal Code (conversion therapy), which would outlaw psychotherapy or spiritual counseling for unwanted same-sex attraction and gender confusion. The 3rd reading passed in principle but should be amended. It presents a threat to both parental rights and religious liberty by making it a crime to provide assistance to those who do not want to be trapped by the homosexual and transgender ideology. Gay and trans activists misrepresent such counseling, suggesting (or sometimes outright stating) that people identifying as LGBTQ are forced into electro-shock therapy – which is patently untrue. Counselling and therapy can help the confused reclaim their biological identity or overcome same-sex attraction, or help them find happiness through a chaste lifestyle. - CLC National News June 2021 (updated)
