

## Principles:

- All humans have an inherent right to life, regardless of age, degree of maturity or any physical or mental defect
- The right to life is the fundamental human right upon which all other rights depend. It should never be sacrificed for lesser good
- Society has a primary duty to uphold and protect this right from conception until natural death

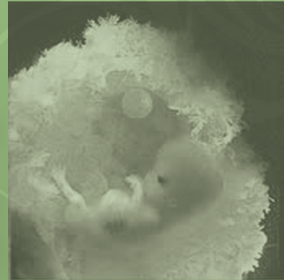

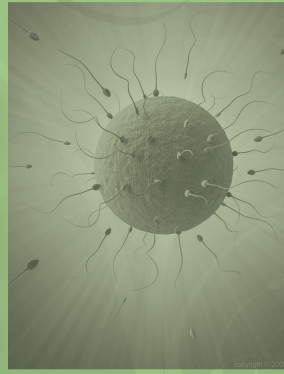

## Aims:

- To proclaim these principles to the people of Canada and to promote their widest possible acceptance
- To co-operate and assist the organization of other groups who subscribe to the same principles of this organization
